

Celeste Copini was born during a sweltering summer in beautiful Australia. Growing up with music, her first memories include dancing with her mother to funky disco tunes.

Music has always been part of Celeste's life, with early ballet lessons, street dance, guitar lessons, making play-lists and DJ'ing at birthday parties. From a very young age, her love for music was evident. After a "hobby" DJ gig at a party, where guests were very happy with her DJ skills, Celeste decided to step up her efforts in becoming a professional DJ.

Celeste followed courses at the Pro DJ School in Amsterdam and was taught by pro's like DJ Renvo, Ricardo and DJ Jose. They recognised her natural ability to feel the music and were captured by her joy and passion in creating funky sets.

DJ Jose discovered Celeste and became her mentor. He has been helping to develop Celeste to next level. She has been booked for big festivals like ADE, Dream Village, Broodrooster etc.

In addition, she has her own time-slot on Beats2Dance Radio at 17:00 every Friday.

Celeste loves upbeat funk and remixed disco and entices the young and the young at heart with her sets. One thing is for sure: you will want to dance!
